Chas. Heffelfinger

40.00 ch.

Survey made for Lewis Denny, Chas. Heffelfinger and Fred Fulmer. to cut off 49 acres on west side of S. W. qr. Sec. 28. Tp. 20 R 15 at A. I dug and found corner stone Hardhead. 43½ l N bet from wild cherry tree 20".

At B I found no stone after digging for it and not known if there was one as there had been some contention in the past about this corner. and the corner according to original notes is common to both Sections, on the west I found fence about 7 ft north and on east about 5 ft. South. I measure to C and find stone post corner. 40.00 ch. North of B. I set hardhead stone 9" under surface at B on proportionate measure of Section for quarter corner. Present W. F. Fulmer. Geo. Bender. Chas. Heffelfinger, Louis Denny.
